

THE DOUBLING SONG (I'M CLEVER!)

By Rebecca Kincaid

CHALLENGE

Can you **draw around your hands** several times, colour the hands in and cut them out? **Now use the hands to practise your 5x and 10x tables!**

TALK ABOUT

Talk about all the different phrases that you can think of with the word 'double' in, and their meanings: double decker; double trouble; double chin; double bed; double agent; double check; double bass; double cross; double cream; double fault; double quick; double act etc.

SHARE IT

Why not give someone a helping hand?

Using the hands that you cut out for the challenge, write some ideas on them that you could do to help someone out in your house to share the load (some kind things; some chores etc.). Hand them out to people in your house!

DID YOU KNOW?

'Eleven plus two' is an anagram of 'Twelve plus one', which is very appropriate as the answer to both is thirteen!

WHY IS
SIX AFRAID
OF SEVEN?
BECAUSE SEVEN
EIGHT NINE!
